USB Cable

USB2.0-Extension, conector A on connector B, 2.0m

Item Description:

The high-quality Zignum USB2.0 extension cable (connector A on connector B), produces a reliable, stable data connection at all times. Thanks to double shielding, data losses during transmission are largely minimised. The cable is upwardly compatible with USB1.0 and manages voltages of 5V and currents in the top of 1100mA. The connectors are shielded and cast with the cable. Transmission rate permits up to 480Mbit/s.

Specifications:

- USB 2.0 connector A on connector B
- Connectors are cast with the cable
- Double-shielding, braided copper and aluminium foil
- Cable size: 2x AWG24 + 2x AWG28
- Cable sheath: PVC
- 5V, up to 1100mA
- Upwardly compatible with USB1.0
